---

Hi all,

I am attaching my comments to the draft report for NSTEPS-WA. I think there has been a lot of great work done and perhaps my comments can spark a conversation on Wednesday about the next steps (assuming we still have the meeting given the Federal shutdown)? The report is a very nice technical piece and I am hoping we can add a little more summary information/'take home' recommendations so that we can capitalize on all of this great work to help better inform the policy folks about the utility of using periphyton communities for assessing stream nutrient concentrations in WA.

Thanks again for all of the great work!

Best,

Chad L.

Hi Rochelle,

I started reading it this morning and plan on spending this afternoon and tomorrow reading through the report. I can get comments back to Mike on Monday. I would be fine having the meeting next week if that is all right with everyone else, but would also be fine postponing a week or two if that is the general preference.

Best,

Chad L.

**Subject:** Checking in on comments on draft report RE: recurring WA NSTEPS monthly check-ins  
Hi Chad and Chad –Re our NSTEPS call scheduled for next week, Mike sent a draft report end of November, and I believe we are awaiting ECY input. Have you had time to look at the draft report, or do you need more time to provide input? Should we retain next week's call or postpone a couple of weeks?

Thanks so much, Rochelle
